## New Village Noticeboards

The Parish Council are delighted to report that we have been successful in our bid to secure grant funding for our villages.

The first grant is to help purchase replacement notice boards for each village. The four we have are now looking well beyond their sell by dates, and the one in Stakeham is currently held together with bailer twine! So, this news has not come a moment too soon. The council will be looking to make applications to Highways shortly, for licenses to install the new boards. We hope this will not take too long, and that they will be in position in the not too distant future.

The second grant is towards 'gateway' village signs in Grove. There will be a public consultation within the village in terms of the design, so we would ask residents to have a think about how they would like the signs to look. Many villages locally have these, some have designs reflecting local points of interest or history, others are plainer with just the village name, and a message asking drivers to pass through with care. Details of the consultation will be announced shortly.

It is hoped to secure further funding for 'gateway' signs for all the villages in time, and for further projects to improve the area. If anyone has any ideas of what they would like to see happen in the future, and which the council may be able to deliver, please either attend a council meeting by Zoom, or email us at [headonpc@gmail.com](mailto:headonpc@gmail.com). We will be pleased to hear from you.

Hopefully residents of all villages are free of Covid and coping in the current lockdown. However, if anyone is struggling, or knows of someone else who is, please do get in touch. The support network set up earlier in the year is still there, and can help with shopping, dog walking, collecting prescriptions, or just having a chat on the telephone. Please either use the email address above or call 07817849886.

Christmas will definitely not be the same this year, but the Parish Council still hopes that everyone has as pleasant a time as possible, and can see their nearest and dearest within the constraints of the restrictions that have been announced.

Take care and be safe!

Julia Harvey  
Chairman

## Better Broadband for Nottinghamshire

Nottinghamshire County Council have invested £750,000 in order to help deliver high-speed broadband to the most rural parts of the county. The £750,000 investment is to support the government's 'Gigabit Broadband Voucher Scheme' which delivers subsidy to rural homes and businesses without access to high-speed broadband to help deploy a full-fibre network. Under the scheme residential premises are eligible for up to £1,500 and small and medium sized businesses are eligible for up to £3,500 through a registered supplier when part of a group scheme. The Notts top-up doubles the value of the voucher, meaning rural residential premises are eligible for up to £3,000, and small and medium sized rural business are eligible for up to £7,000.

For further details on the scheme and to see if your property is eligible please visit [www.nottinghamshire.gov.uk/top-up](http://www.nottinghamshire.gov.uk/top-up) or contact the team at [enquiries.broadband@nottscc.gov.uk](mailto:enquiries.broadband@nottscc.gov.uk)

## Headon-cum-Upton, Grove and Stokeham Parish Council.

Notes of the virtual Parish Council meeting held on Monday 7<sup>th</sup> November 2020.

Cllr Harvey invited Tom Robbins to the meeting he was one of the co-authors of the 2018 Grove War Memorial report. Tom provided the meeting with option to refurbish the war memorial. A soft touch minimal work refurbishment is the preferred option. This option would involve relaying the paving around the monument, resetting displaced steps, installing a single handrail on both flights of steps. Chemical free cleaning of the monument and steps and remarking of the inscriptions. Further discussions to take place with Bassetlaw District Council.

Cllr Coulte discussed antisocial behavior around Worksop and links to accommodation for homeless people. Due to national COVID-19 restrictions, Bassetlaw DC experiencing budget issues. The current national issues with COVID-19 may have an impact on the speed of the proposed changes to Nottinghamshire CC local government.

Do you know that Parish Councillors regularly check parish defibrillators? Do you know where the defibrillators are located around the parish?

The Parish Chairman has an yearly allowance and ordered a poppy wreath and donated £60 to the Royal British Legion. The wreath was installed at Grove War Memorial on behalf of the Parish Council. Did you see the poppies on the parish lamp columns? What do you think about the lamp column poppies?

Headon Camp, no further update is available. Cllr Mosley informed the meeting that a new fence has been installed at the site. Cllr Greenhalgh reported that activity at the camp has recently reduced.

Cllr Greenhalgh has canvased the residents of Nether Headon about the current 60 MPH speed limit and the consensus is for a reduced speed limit. Clerk to write to Nottinghamshire CC.

The Parish Council does not have its own website or use social media, the Parish Council have started to discuss this matter.

It has been reported about an incident of potential fly tipping at the Old Walled Garden, Grove.

The draft proposed budget for 2021/22 is currently being consider by the full council.

To confirm the date and time of next Parish Council meeting is on Monday 7<sup>th</sup> December 2020 at 19:30hr. Please note that because of the restrictions imposed by the Corona virus the next meeting will be a virtual meeting via Zoom. ## **Consultation Draft Bassetlaw Local Plan: November 2020**

Bassetlaw District Council is currently consulting all interested parties on the latest Draft Bassetlaw Local Plan. The Council welcomes your views and comments on the content and direction of this document in order to help shape the development of the new Local Plan for Bassetlaw.

The Draft Bassetlaw Local Plan details strategic and local policies and site allocations, including a new garden village. Once adopted, the Bassetlaw Plan will establish the long-term approach to development in the District up to the 2037. **The eight week consultation closes at 5pm on the 20th January 2021.**

As a result of the current Covid 19 restrictions in place, this will be a mostly virtual consultation. Full details on the Draft Bassetlaw Local Plan can be viewed on the District Council's website: [www.bassetlaw.gov.uk/bassetlawplan](http://www.bassetlaw.gov.uk/bassetlawplan)

## Chris' Beekeeping Year — December

Twelve month's have passed since I started this series of articles. The bees are now safely tucked away in their hives using up their supplies of food collected over the year awaiting the warmer weather of next spring for the annual cycle to start again.

Overall honey wise it has been an average year. I was able to collect a good first crop in the spring but the main summer crop in August was very disappointing. This was the complete opposite of last year so I suppose this shows us that things balance out over time.

The main influence on honey production, as in farming in general, is the weather. If it is too wet the bees won't come out to forage, if it is too hot or dry the plants don't have enough moisture to produce sufficient nectar for the bees to forage on. So the ideal weather would be rain during the night and warm during the day but as all gardeners know this very rarely happens!

If you can remember back to April / May we had lots of sunshine and the soil was still moist from the deluge of rain we had over the winter. This also brought forward a lot of garden plants so by the time we hit July a lot of plants had finished and then we hit another dry period and nectar supplies simply dried up.

To finish with I have put together a few bee facts just so you know how amazing these creatures are:

- Bees fly at an average speed of 15mph.
- Each honey bee has 4 wings and 5 eyes (2 large compound and 3 simple).
- In flight a bee beats its wings around 180 times a second (10,800 beats per minute), thus making their distinctive buzz.
- Bees have two separate stomachs; one for food and another just for nectar.
- Honey bees communicate with each other by dancing. This special waggle tells other bees the location of food sources.
- Bees are able to detect and use gravity to navigate whilst in total darkness within the hive.
- Bees can see ultra-violet light. Many flowers have patterns that are invisible to humans unless illuminated by UV.
- A bee will travel up to 6 miles on a foraging trip and visit between 50-100 flowers.
- A worker bee, in her entire life, gathers 0.8 gram (0.0288 ounce) of honey.
- To collect a pound(454g) of honey a hive of bees would have to fly 55,000 miles (more than twice around the world). This is likely to involve more than 2 million flower visits on perhaps 40,000 foraging trips.

So when you see how much effort and energy is expended to collecting honey you can understand the expression as 'busy as a bee'. I hope you have enjoyed a walk through the beekeeping year and above all, make you scrape all the honey out of the jar. That last bit is the work of hundreds of bees!
